Fitch Rates DZ HYP’s Senior Preferred Debt 'AA-'/F1+'

Fitch Ratings-Frankfurt/London-10 January 2019: Fitch Ratings has assigned DZ HYP AG's (AA-/Stable) debt issuance programme long- and short-term senior preferred debt ratings of 'AA-' and 'F1+', respectively. Fitch has also assigned DZ HYP's EUR55 million senior preferred note due 2027 (ISIN DE000A2G9HH7) issued under the programme a 'AA-' rating.

KEY RATING DRIVERS
SENIOR PREFERRED DEBT
DZ HYP’s debt issuance programme ratings for senior preferred notes are equalised with the bank’s Issuer Default Ratings (IDRs). DZ HYP's IDRs are aligned with those of the German cooperative banking group, Genossenschaftliche FinanzGruppe (GFG; AA-/Stable/F1+), of which the bank is a member. GFG is not a legal entity but a banking network, whose cohesion is ensured by a mutual support scheme. Therefore, Fitch rates GFG's members based on its approach to rating mutual banking groups backed by mutual support mechanisms.

Senior preferred is a class of senior unsecured debt introduced on 21 July 2018 by amendments to the German resolution regime. This new regime implements the reform of the Bank Resolution and Recovery Directive agreed at EU level at end-2017, which aims at harmonising the ranking of senior debt in resolution and insolvency across the EU. The new regime defines senior preferred debt as the new reference senior debt class and gives German banks the possibility (by specifying so in each note's issuance documentation) to issue senior non-preferred debt that ranks between senior preferred and subordinated Tier 2 debt.

Under our Bank Rating Criteria, senior preferred debt ratings can benefit from a one-notch uplift above a bank’s IDRs if we assess that the bank has sufficient buffers of qualifying junior and senior non-preferred debt to provide its senior preferred creditors with additional protection in a resolution scenario. However, we have not given any uplift to DZ HYP’s senior preferred debt rating, as in our opinion, GFG's consolidated layer of junior and senior non-preferred debt is not large enough to provide senior preferred creditors with additional protection.

This is primarily driven by the fact that DZ BANK AG, GFG’s dominant senior debt issuer and DZ HYP’s parent, traditionally places a large share of its senior debt issuance within GFG. It also reflects DZ BANK’s limited debt issuance needs due to the modest size of its wholesale business relative to the predominantly retail deposit-funded GFG.

RATING SENSITIVITIES
SENIOR PREFERRED DEBT
DZ HYP's senior preferred debt and issuance programme ratings are primarily sensitive to a change in the bank's IDRs.

DZ HYP is GFG's largest real-estate lender and Germany's largest covered-bond issuer. It focuses on commercial real-estate, housing, public-sector and household clients.

Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it
obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US$1,000 to US$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US$10,000 to US$1,500,000 (or the applicable currency equivalent).
